

Make It Yours.

COOLER MASTER GM34-CW

IMMERSIVELY POWERFUL

Cooler Master GM34-CW is designed for gamers who are not willing to compromise their experience in both the gaming competency and the beauty of game scenes by offering the dedicated game mode with FreeSync and HDR on simultaneously. We believe every gamer shall also enjoy their quality time on everyday entertainment, and have a powerful tool for work.

Win Every Scene, No Compromise

SPECIFICATIONS & PACKING INFORMATION

FEATURES

• GAME WITHOUT COMPROMISE

GM34-CW is designed for users to have an awesomely smooth gameplay experience with maximized display quality of game scenes. You won't miss the beauty in the detail while playing the latest games. By simply switching to the power game mode, you are all set to game without any compromise.

• AHEAD OF YOUR COMPETITION

By having the power game mode with up to 144Hz ultra high refresh rate, 1ms response time and DisplayHDR400 support, you are given the ultra power to react faster, and spot your enemies in the dark.

• GAME IN SPECTACULAR

GM34-CW monitors use an Ultra WQHD 3440*1440 VA panel on the ultrawide curved 1500R rate, the designed-in wide color gamut and ultra narrow bezel, which bring your gameplay just like in the reality. Indulge in the best immersion possible, to be all in the game.

• WIN IN COMFORT

Your eyes and gestures are both taken care of by the protection of the low blue light display mode and the benefit of height adjustable stand which give you a worry-free, customized, and comfortable journey to win.
